Highlights

Total access to iPhone
The openings on this case allow total access to all iPhone controls, the dock connector and the camera, so you can fully utilise iPhone while it's protected inside the case.

Shock-absorbing case
This case is made out of thermoplastic polyurethane, which is a high-performance elastomer, to add both grip and shock-absorption in one unique case.

Crystal clear screen protector
The crystal-clear film adds an invisible layer of protection against scratches and dust to your device's display screen. It works using static adhesion, so it's easy to apply and remove without leaving any sticky residue.

Slim, pocket-friendly design
The slim design adds protection with minimal added bulk, so your device still fits easily into your pocket or bag for protection on the go.
